

Mid-year report:

- All about progress
- 

Presentation:

- One person speaks, then the other person no interleaving
- 5 minutes each - 4 or 5 slides
- We need to convey to the audience who doesn't know much about these things
- Give a broad perspective with some technical details
  - Equations
  - Waveforms
  - Schematics
- In the next 6 weeks, what are the additional results we want to target
- What are the challenges
- What we have done till now, results

Challenges

- No instruments to quantify
- Future work
  - Simulation measurements

Questions that people may ask:

-
